

# Ancient Golden Coin (ANGC)

The gold of ancient times is reborn with the power of the digital age.

## Official Whitepaper

### 1. Introduction

Ancient Golden Coin (ANGC) is a community-driven meme token built on the Solana blockchain. Inspired by the timeless value of ancient civilizations, ANGC merges historical symbolism with modern decentralized technology. The project aims to create a strong, transparent, and long-term community asset.

### 2. Vision & Philosophy

ANGC represents the rebirth of ancient value systems in the digital age. Just as gold once symbolized trust and stability, ANGC aims to symbolize digital trust and scarcity.

### 3. Token Utility

ANGC is designed as a digital collectible, community reward token, and ecosystem currency for future community-driven initiatives, tipping, governance, and integrations.

### 4. Tokenomics

Total Supply: 420,000,000 ANGC

Circulating Supply: ~1,000,000+ ANGC

Locked Supply: 280,000,000 ANGC

Blockchain: Solana

Mint Address:

9phsToFNigvC1g7A6k1bhtYnzN78Jyq9SLFYbChyaH4P

## 5. Liquidity & Security

Liquidity is provided via Raydium concentrated liquidity (CLMM). Liquidity will not be removed, ensuring transparency and long-term commitment.

## 6. Transparency & Communication

For security reasons, ANGC does not operate a Telegram group. We will never send direct messages on any platform.

## 7. Roadmap

Phase 1: Token launch, liquidity, token lock

Phase 2: Website & listings

Phase 3: Community growth & partnerships

Phase 4: Long-term ecosystem development
